

OneSignal Push Notification Setting

Open your build.gradle (Module: app) file

In the same build.gradle file, add the following in your android > defaultConfig section below your applicationId.

1. Update PUT YOUR ONESIGNAL APP ID HERE with your OneSignal app id
2. Update PUT YOUR GOOGLE PROJECT NUMBER HERE with your Google Project number.

```
android {  
    defaultConfig {  
        manifestPlaceholders = [manifestApplicationId: "${applicationId}",  
                                onesignal_app_id: "PUT YOUR ONESIGNAL APP ID HERE",  
                                onesignal_google_project_number: "PUT YOUR GOOGLE PROJECT NUMBER HERE"]  
    }  
}
```
